

Kevin T. Du Clos Curriculum Vitae June 21, 2021	Postdoctoral Researcher Oregon Institute of Marine Biology University of Oregon Cell: 858-245-7125 E-mail: duclos@uoregon.edu URL: kevinclos.com
--	---

Education

2016	Ph.D. in Biological Oceanography University of Maine Advisors: Pete Jumars and Damian Brady Dissertation: Fluid dynamics of active suspension feeding
2012	M.S. in Biological Oceanography University of Maine Advisors: Pete Jumars and Sara Lindsay Thesis: Polychaete burrowing behavior in sand and mud
2007	B.S. in Microbiology with a minor in Photography University of California at San Diego

Professional appointments

2020–Present	Postdoctoral associate Institute of Ecology and Evolution University of Oregon, Eugene, OR Advisor: Kelly Sutherland
2019–2020	Adjunct instructor Department of Integrative Biology University of South Florida, Tampa, FL
2017–2020	Postdoctoral researcher Department of Integrative Biology University of South Florida, Tampa, FL Advisor: Brad Gemmill
2018–2019	Co-advised by Tracy Villareal at the University of Texas at Austin

Publications (16)

David M Durieux, Kevin T Du Clos, and Brad J Gemmill. Benthic jellyfish dominate water mixing in mangrove ecosystems. *Proceedings of the National Academies of Sciences*, in press

Nimish Pujara, Kevin T Du Clos, Stephanie Ayres, Evan A. Variano, and Lee Karp-Boss. Measurements of trajectories and spatial distributions of diatoms (*Coscinodiscus* spp.) at dissipation scales of turbulence. *Experiments in Fluids*, in press

Nils B Tack, Kevin T Du Clos, and Brad J Gemmill. Anguilliform locomotion across a natural range of swimming speeds. *Fluids*, 6(127), 2021

Kevin T. Du Clos, Lee Karp-Boss, and Brad J. Gemmill. Diatoms rapidly alter sinking behavior in response to changing nutrient concentrations. *Limnology and Oceanography*, 66:892–900, 2021

Brad J Gemmill, Kevin T Du Clos, Sean P Colin, Kelly R Sutherland, and John H Costello. The most efficient metazoan swimmer creates a ‘virtual wall’ to enhance performance. *Proceedings of the Royal Society B*, 288(1942):20202494, 2021

- **Featured** in *The New York Times* and on the *Quirks and Quarks* radio show (CBC).

- Sean P Colin, John H Costello, Kelly R Sutherland, Brad J Gemmell, John O Dabiri, and Kevin T Du Clos. The role of suction thrust in the metachronal paddles of swimming invertebrates. *Scientific Reports*, 10:17790, 2020
- Sara M Garcia, Olivia H Hawkins, Kevin T Du Clos, and Brad J Gemmell. Sublethal effects of crude oil and chemical dispersants on the eastern oyster: Are later life history stages more vulnerable? *Journal of Marine Science and Engineering*, 8(10):808, 2020
- Kevin T Du Clos, Lee Karp-Boss, Tracy A Villareal, and Brad J Gemmell. *Coscinodiscus wailesii* mutes unsteady sinking in dark conditions. *Biology Letters*, 15(3):20180816, 2019
- Kevin T Du Clos, John O Dabiri, John H Costello, Sean P Colin, Jennifer R Morgan, Stephanie M Fogerson, and Brad J Gemmell. Thrust generation during steady swimming and acceleration from rest in anguilliform swimmers. *Journal of Experimental Biology*, 222(22), 2019
- Kevin T Du Clos, Amy Lang, Sean Devey, Philip J Motta, Maria Laura Habegger, and Brad J Gemmell. Passive bristling of mako shark scales in reversing flows. *Journal of The Royal Society Interface*, 15(147), 2018
- **Featured** in *The Independent*, *Ars Technica*, *New Scientist News*, and *Fox News* articles.

- **Featured** in the 2018 *Journal of Experimental Biology* calendar.
- Kevin T Du Clos. Visualizing subsurface burrowing by the polychaete *Alitta virens* with particle image velocimetry. *Limnology and Oceanography: Methods*, 12:703–712, 2014
- T L Ogden and Kevin T Du Clos. ‘SWeRF—A Method for Estimating the Relevant Fine Particle Fraction in Bulk Materials for Classification and Labelling Purposes’ by Pensis, Luetzenkirchen, and Friede. *Annals of Occupational Hygiene*, 58(6):784–787, 2014
- Kevin T Du Clos, Sara M Lindsay, and Peter A Jumars. Spatial distribution of *Alitta virens* and *Clymenella torquata* with respect to rigid boundaries in mud and sand. *Journal of Marine Research*, 71(3):211–226, 2013
- Ranhy Bang, Lorraine Marnell, Carolyn Mold, Mary-Pat Stein, Kevin T Du Clos, Corinn Chivington-Buck, and Terry W Du Clos. Analysis of binding sites in human C-reactive protein for Fc γ RI, Fc γ RIIA, and C1q by site-directed mutagenesis. *Journal of Biological Chemistry*, 280(26):25095–25102, 2005

Funding

2021-2024	NSFGEO-NERC Collaborative Research: Novel imaging, physiology and numerical approaches for understanding biologically mediated, unsteady sinking in marine diatoms. Co-PIs: Brad Gemmell, Lee Karp-Boss, and Glen Wheeler. I co-wrote the proposal as a postdoc at USF and will be issued a sub-contract to work on the project as PI at the University of Oregon. Amount of subcontract: \$102,756.
-----------	--

Teaching and mentorship

Courses taught

Spring 2019 – Fall 2019	Biology Skills – University of South Florida Primary instructor for three semesters
Spring 2018	Independent study: Research skills – University of South Florida

Guest lectures

Feb. 2021	University of South Florida, Mechanical Engineering Department Biofluids and Bioinspired Design Class Biomechanics of swimming in sharks and siphonophores
Feb. 2021	University of Oregon, Institute of Ecology and Evolution Marine Biology Course Benthic Communities
Jan. 2019	University of South Florida, Integrative Biology Department Marine Biology Course Adaptations for the chemical and physical environment
Oct. 2018	University of South Florida, Mechanical Engineering Department Biological Fluid Mechanics Course Biomechanics of swimming and suspension feeding
Oct. 2018	University of South Florida, Integrative Biology Department Marine Ecosystem Dynamics Course Coastal processes
June 2014	Darline Marine Center, University of Maine MATLAB for Marine Scientists Image processing

Undergraduate students mentored

2021	Kayla Nease: Siphonophores morphometrics.
2019	Hailley Nieves: Effects of crude oil on marine snow communities.
2018	Hailley Nieves: Thrust and drag forces associated with accelerating lamprey swimming. Edward Goode: Effects of oil exposure on copepod escape responses. <i>Received 'Excellence in Research' award from USF for project.</i>
2017	Marcos Martinez: Effects of oil droplet exposure on oyster suspension feeding.
2013–2015	Ian Jones, Tyler Carrier, and Carolyn Garrity: Quantification of suspension feeding flow using particle image velocimetry (PIV)
2011	Alexander Borsky: Tracer study of bioturbation activity.

Conference presentations

Jan. 2021	Society for Integrative and Comparative Biology Meeting – Virtual Poster presentation: Synchronous swimming in siphonophores yields higher maximum speeds but lower efficiency and higher cost of transport
Jan. 2020	Ocean Sciences Meeting – San Diego, CA Oral presentation: Dynamic Unsteady Sinking Behavior in Marine Diatoms: Rapid Responses to Changing Nutrient Conditions.
Jan. 2020	Gulf of Mexico Oil Spill & Ecosystem Science Conference – Tampa, FL Poster presentation: Microzooplankton Communities Associate with Oiled Marine Snow.
Jan. 2019	Microscale Ocean Biophysics Meeting – Whistler, Canada Poster presentation: Effects of light and nutrients on unsteady diatom sinking.
Jan. 2019	Society for Integrative and Comparative Biology Meeting – Tampa, FL Oral presentation: Flexible scales of the mako shark respond to drag inducing small-scale flow features.
Feb. 2018	Ocean Sciences Meeting – Portland, OR Oral presentation: The Pressure's On, Then Off: Sea Lampreys Rapidly Switch from Push to Pull Thrust When Accelerating from Rest.
Nov. 2016	Microscale Ocean Biophysics Meeting – Eilat, Israel Oral presentation: Suspension-feeding rates of juvenile clams
Feb. 2016	Ocean Sciences Meeting – New Orleans, LA Oral presentation: Particle image velocimetry (PIV) measurements of suspension-feeding velocities
Jan. 2015	Microscale Ocean Biophysics Meeting – Aspen, CO Poster presentation: Modeling pipette capture regions.
Feb. 2014	Ocean Sciences Meeting – Honolulu, HI Poster presentation: Factors affecting refiltration by model filter feeders.
March 2013	Benthic Ecology Meeting – Savannah, GA Oral presentation: Particle image velocimetry for surface visualization of <i>Alitta virens</i> burrowing.
March 2012	Benthic Ecology Meeting – Norfolk, VA Poster presentation: Preferential burrowing of <i>Alitta virens</i> at rigid boundaries in mud but not sand.

Professional service

Nov. 2020	University of South Florida, Department of Integrative Biology – Tampa, FL Postdoc Panel
Jan. 2019	Session co-chair Society for Integrative and Comparative Biology Meeting
Aug. 2019	Grant proposal reviewer <i>USC Sea Grant Program</i>

Journal reviewer: *Limnology and Oceanography, Journal of Experimental Biology, Journal of the Royal Society Interface, Integrative and Comparative Biology, Physics of Fluids, Estuarine, Coastal, and Shelf Science, Frontiers in Marine Science, Bioinspiration and Biomimetics, Annals of Occupational Hygiene*

Invited seminars

May 2021	University of Oregon, Oregon Institute of Marine Biology – Charleston, OR Biomechanics of swimming in diverse marine organisms
March 2020	University of South Florida, Department of Integrative Biology – Tampa, FL Sink or swim: Insight into aquatic locomotion
Jan. 2018	University of South Florida, College of Marine Sciences – St. Petersburg, FL Biomechanics of swimming and suspension feeding

Honors, awards, and fellowships

Jan. 2018	Postdoc Travel Award Office of Graduate Studies, University of South Florida
Aug. 2016	Chase Distinguished Research Assistantship Graduate School, University of Maine
May 2016	Faculty Choice oral presentation School of Marine Sciences Graduate Student Symposium, University of Maine
April 2016	Graduate Research Excellence Award College of Natural Sciences, Forestry, and Agriculture, University of Maine

Workshops and courses attended

June 2015	Particle Turbulence-Interactions in the Plankton Workshop – Darling Marine Center
Aug. 2009	Aquatic Microbial and Molecular Ecology Course – University of Southern Denmark
2008	Limnology, Microbiology, and Ecology courses – University of New Mexico
